PROJECTS

ZOMATO: ONLINE FOOD DELIVERY WEB APP CLONE (06/2024)

- **Technology Used :- HTML5 , CSS3.**
- **Github repo link - <https://github.com/Riddhinegi/ZomatoLandingPageClone>**
- Responsive Web Development & UI/UX – Built a Zomato homepage clone with hero section (sign-in/login, investor relations, offers), and dynamic sections (Great Cafés, Insta-Worthy Cafés, Best-View Places, Unique Dining Experiences) using semantic HTML, CSS Grid/Flexbox, media queries, hover effects, and polished layouts for cross-device performance and engaging user experience.

NETFLIX- WEB APP CLONE (07/2024)

- **Technology used :-HTML5,CSS3.**
- **Github Repo Link - <https://github.com/Riddhinegi/NetflixLandingpageClone>**
- Responsive Web Development & UI/UX – Designed an interactive Netflix landing page clone with full-width hero section (background overlay, navbar with language dropdown, sign-in, email capture, CTA), simulated video previews (autoplay, loop, muted), and built a responsive footer with CSS animations, hover effects, and media queries for seamless cross-device performance.

PAYMENT LANDING WEB APP (07/2025)

- **Technology Used :- HTML5 , CSS3 , JAVASCRIPT**
- **Github Repo Link - <https://github.com/Riddhinegi/Payment-Landing-Page>**
- Payment Landing Page Development – Designed a modern, responsive interface with hero section, navigation (About Us, Help, Blog, Pricing), and trust-driven layout; enhanced UI/UX using CSS animations, hover effects, accessibility best practices, and ensured cross-device performance with responsive design and media queries.
